- Docking Base with DVI connector, 3.5mm audio jack (Stereo), and two USB connectors
- DVI to VGA Adapter
- Power Supply Unit

From their laptop, users can wirelessly connect to an LCD display, keyboard, mouse and speakers.

Overview

The Easy Dock allows users to wirelessly connect their notebook/PC to their desktop environment, consisting of a monitor, speakers, keyboard and mouse, without having to use any cables.

The set includes a PC Adapter and a pre-paired DisplayDock (comprised of a Device Adapter and a Docking Base), enabling a quick, hassle-free setup and immediate operation.

The Easy Dock provides full room coverage, making it ideal for using with a large screen and listening to music from the laptop, without cable length limitations. Plug and play functionality provides users with the freedom of walking away with the notebook PC and immediately getting connected when re-entering the room.

The Easy Dock incorporates Wisair's WSR601 single chip and Wisair's UltraSpeed technology, delivering the best combination of wireless performance and cost.
